

The image shows a close-up, low-angle view of a wooden ceiling. The ceiling is composed of a grid of dark wood beams. At each intersection of the beams, there is a large, intricately carved wooden flower or floral motif. The lighting is warm and soft, coming from below, which creates a golden glow in the recessed areas of the ceiling and highlights the texture of the wood and the details of the carvings. The overall atmosphere is serene and elegant.

Swimming Pool Safety Code

ALWAYS SWIM WITHIN YOUR ABILITY

Never swim after a heavy meal or after alcohol consumption. Avoid holding your breath and swimming long distances under water. Be especially careful if you have a medical condition such as epilepsy, asthma, diabetes or a heart condition.

CHECK NEW PLACES

Every pool is different, so always make sure you know how deep the water is (our pool's depth is 1.2m and therefore diving is strictly prohibited) and check for other hazards. We have a deck level pool thus slipping is possible and we recommend not to walk on the edge of the pool. Ensure you enter and exit the pool at the stairs.

TAKE SAFETY ADVICE

Follow advice provided for your safety and that of others. Avoid unruly behaviour that can be dangerous, such as running around the pool, ducking, acrobatics in the water, and shouting or screaming (which could distract attention from an emergency). Always do as the spa attendants say and remember that a moment of foolish behaviour can cost a life.

LOOK OUT FOR YOURSELF AND OTHERS

It is safer to swim with a companion. Keep an eye open for others, particularly young children and non-swimmers.

LEARN HOW TO HELP

If you see someone in difficulty, get help immediately. In an emergency, keep calm and do exactly as you are told.
